# PREFACE

*LET PLANETS BESTOW YOU PROSPERITY, HAPPINESS, HEALTH AND  
SUCCESS in 2025!*

Astrology holds significant importance as a subject, serving as a crucial tool for self-control. Often referred to as a third eye, Indian Astrology, deeply rooted in the Vedas, is considered the eyes of these ancient scriptures.

With a history deeply embedded in India, astrology has played a guiding role in shaping the daily routines of individuals. Throughout time, researchers and gurus have explored the influence of planets on human beings, offering various theories.

The universe, with its celestial bodies like the Sun, Moon, and stars, is believed to impact various aspects of human life—bringing forth pleasures and irritations, joy and sorrow, rejoice and grief, happiness and frustration.

Indian astrology stands out for its richness in understanding the effects of planets on human beings. The science of astrology is vast, and numerous sages, including Atri, Angeerasa, Badarayana, Bhṛigu, Brihaspati, Chyavana, Garga, Gautama, Jaimini, Kalidasa, Kasyapa, Manu, Mareechi, Narada, Parasara, Powlasa, Romasa, Satyacharya, Sownaka, Sripati, Surya, Varaha, Vasista, Vyasa, and Yavana, have contributed extensively to its body of knowledge.

This booklet, offered in PDF format, marks our initial effort, covering countries such as the USA (all zones and key locations), the UK, and India (prominent places). We welcome suggestions for expanding the coverage to include additional areas, aiming to enhance the content. Our current focus is on providing essential and valuable details for easy communication through mail while keeping the booklet concise and informative.

# FAMILIARISING THE PANCHANG (ALMANAC)

In India astrology has its ancient roots. The guiding hand of astrology is very much evident in individual's day to day life in India and even across the world. Astrology is prevalent in following 3 ways / Parts:

1. Horoscopes – Providing Past, Present and Future knowledge of happenings of human beings.
2. Muhurta / Auspicious Times – Providing auspicious times for start of important works to facilitate success.
3. Siddhanta / Planetary data – Providing necessary input data for the above two parts in the form of Panchang (Almanac) which is dealt with in this booklet.

Astrology mainly deals with **TIME**. Period of Time is defined and quantified in many ways and a few of which are illustrated as under:

**DAY**- A Day contains 24 Hours, each Hour consisting of 60min and each Minute consisting of 60 Seconds. Previously in India, a day is divided into 60 ghadi (Naligal) and each Ghadi is divided into 60 Vighadi (Vinaligal).

**PAKSHA** – A month is divided into 2 Paksha namely Sukla and Krishna, each consisting of 15 Tithi (days). The Sukla paksha starts after the conjunction of Sun & Moon, which is dark Moon Day called Amavasya. The intervening period from dark Moon Day to full Moon Day is divided into 15 parts and it is called Sukla Paksha. The intervening period from full Moon Day to next dark Moon Day is divided into 15 parts and it is called Krishna Paksha. The Krishna paksha starts after the bright Moon Day called Poornima.

**WEEK** – There are 7 days in a week, which all of us are aware.

**NAKSHATRA** (Star Constellation) – The Zodiac is divided into 27 Nakshatras making it to 360 degrees, each forming an arc of 13 degrees and 20 minutes coinciding with ZERO degrees of first sign Aries (Mesha) and first Nakshatra Aswini. These are listed in the subsequent paragraphs.

**YOGA** – There are 27 Yoga. These are formed by the combined movement of planets SUN & MOON. The favourability or otherwise of these yoga have been indicated in each day of the Almanac.

**KARANAM** – There are 11 Karanas. Each Tithi is divided into two parts making a cycle of Moons rotation across earth into 60 divisions and are named as per a standard sequence. The sequence of occurrence of these Yoga and their favourability or otherwise have been indicated in each day of the Almanac.

The Panchang mainly deals with the above 5 subjects. The names of months are Chaitra, Vaisakha, Jyesta, Aashadha, Sravana, Bhadrapad, Aswayuj, Karteek, Margasir, Pushya, Magha,

Phalgun. Broadly, 12 months make up a year and each year is named and the names get repeated under a cycle of 60 years. There are provided in the subsequent sections.

**GRAHA (PLANETS)** – Lot of data has been captured through ages on the movement of planets Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu and Ketu and their effects on human beings. The particulars of planets, their Inter relationships, Favourable directions – Colours etc., are listed and provided in subsequent sections.

**RASI (SIGNS)** – The Zodiac is divided into 12 signs of 30 degrees each. The Characteristics of these 12 signs is listed in subsequent sections.

**LAGNA (Ascendent)** – Lagna, the Ascendent is the raising position of Zodiac.

**PANCHAKA RAHITHA** – It is essentially applicable while computing Muhurta (Auspicious) Timings for various events. Initially, find out the SUM of numbers of Lagna -Asc (1 to 12), Tithi- Lunar day starting after dark Moon Day (1 to 30), Week Day (1 to 7) and Nakshtra- Star (1 to 27). Divide the summation by 9 and obtain the remainder. The effect for various values of Reminders are as under: -

- Reminder 1 is Mrityu Sankat (Deadly), it is highly inauspicious at sun rise, and Sun set, on Wednesdays and for Marriages and should be avoided.
- Reminder 2 is Agni Bhay (Fire), is highly inauspicious all the time of day, on Tuesdays and activities pertaining to households and should be avoided.
- Reminder 4 is Raja Krodh (King's Rath), it is highly inauspicious during day time, on Saturdays and for official activities and should be avoided.
- Reminder 6 is Chora Bhay (Fear of Thefts), is highly inauspicious during night time, on Tuesdays and activities pertaining to travels and should be avoided.
- Reminder 8 is Roga Bhay (Fear of Illness), it is highly inauspicious during night, on Sundays and for Upanayana muhurta and should be avoided.
- Reminder 3, 5, 7, 0 (or 9) are auspicious (good).

Further Exceptions: If the Muhurta Lagna is strong, that is Lagna lord well placed or under the aspect of its lord or benefic planets.

# UTILITY OF PANCHANG

**CREATION OF HOROSCOPE:** Horoscope of new born children can be created with the help of this Panchang. Now a days, lot of web sites are providing this facility freely. But the horoscopes do not cover life predictions comprehensively since the Indian astrological principles are very complex to apply on the individual's horoscopes.

- **Computation of Lagna (Ascendent):** - Each ascendent spans for 30 degrees in longitude, with 12 signs makes it total of 360 degrees. The 12 ascendent ending times are provided for each day of the year. These have been calculated as per applicable Latitude, Longitude and the Zonal time of the place and provided in this Panchang. The ascendent end times are selected from the tables basing on the birth date and time and interpolated to obtain the longitude degrees. Example. If a child is born, say at 6am on 01 August 2025, you need to locate both the adjacent ascendent end timings of 6am. These are 4.52am & 7.03am of Cancer. The Ascendent will be Cancer 15.55 degrees =  $\{(6 - 4.87) * 30 / (7.05 - 4.87)\}$ .
- **Computation of Planetary Longitudes through Ephemeris:** - The planetary longitudes of each planet on daily basis is provided in the Ephemeris tables. These are basing on the GMT ZERO Hours (Mid night). Example. If a child is born, say at 6am on 01 August 2025, you need to locate the planet's longitudes on adjacent dates and then interpolate the longitude of each planet for 6am.
- **Computation of Planetary Longitudes through Transits:** - Dates and Times of entry of each planet into various Signs, Nakshtra and Amsa are provided in "2025 -Various Planetary Transits".

**TRANSITORY EFFECTS OF PLANETS & FORECASTS:** The Daily Guide requires the details of movement (Transit) of Moon across Nakshatra, Sign and Moons Astaka Varga Bindu in the natal horoscope of individuals. In general, the effects basing on Nakshatra (Tara Bal) and Sign (Chandra Bal) are considered and the result is arrived. Similarly Weekly Forecasts require the details of movement (Transits) of all planets across Nakshtra, Signs and the planetary Astakavaraga Bindu (Strengths). In this, in general all planetary effects are considered with the exception of Astaka Varga Bindu strengths.

**MUHURTA (AUSPICIOUS TIMINGS) FOR MARRIAGES Etc.:** Complete details of Tithi, Week of day, Nakshtra, Yoga, Karana and Lagna ending timings are provided. Also, the requirements for various activities have been provided. Even the list of Auspicious Timings for essential activities is provided. Only users need to verify their suitability to them basing on their natal birth sign. The authors with their decades of experience can provide you above services taking the individuals Horoscope into consideration.

## COMPATIBILITY FOR MARRIAGE

For Brahmins- Graha Mitri Vargah, for Khatriyas-Gana Vargah, for Vaishyas-Stree Dheergha and for Shudra-Yoni Vargah, need to be compatible. In addition, if the matching Guna between groom and bride is greater than 18, compatibility is deemed to be good. The Compatibility Guna table below provides the guna.

**GRAHA MITRI VARGAH** – This is an essential requirement for the brahmins. In olden days, only Brahmins are supposed to be well versed in various fields of knowledge specifically Vedas. In the present social conditions, most of the people are highly educated and knowledgeable and caste has lost its significance. Presently, this aspect of Friendship between Sign (Rasi) rulers is very essential for all. A table showing the friendly relationship between ruling planets provides necessary information in this regard.

**GANA VARGAH** – For Khatriyas, people working in the areas of military or police forces, Gana Varga is important. The Gana vargah of the groom and bride is obtained based on the individual Nakshatra (Star) from the data provided in the table “Nakshatra & Particulars”. The Nakshatras are divided into 3 classes of people say Deva, Manushya and Rakshasa. Marriage between people of the same class is excellent. If one is under Deva gana and the other is under Manushya – it is considered as medium. Similarly, if one is under Rakshasa gana and the other is under Manushya – it is considered as medium. If one of the individual is Deva or Manushya and the other is Rakshasa, it will be treacherous.

**STREE DHEERGA VARGAH** – For Vaishyas, people working in the areas of business, Stree Dheergha is important. The Grooms Nakshatra when counted from that of bride - if it is less than 9, is called First “NAVAKA”. When the count is between 10 & 18 – it is Second “Navaka” and when the count is between 19 & 27 – it is Third “Navaka. If the Nakshatras are within First Navaka, both will be having disputes. If in Second Navaka, the result will be medium. If in Third Navaka, the result will be good YONI VARGAH – For Shudras, people of lower / working class, Yoni Vargah is important. The Yoni vargah of the groom and bride is obtained based on the individual Nakshatra (Star) from the data provided in the table “Nakshatra & Particulars”. Each Nakshatra is attached with an animal. The pairs like Cow -Tiger, Rat – Cat, Horse – Buffalo, Dog – Deer, Snake – Mongoose, Monkey – Goat, Elephant – Lion are considered as natural Enemies. Marriage between people of the same class of animals and if genders differ, it is excellent. Marriage between people of the above listed pairs is treacherous. Marriage between people not belonging to the above listed pairs is good if gender differs – otherwise, it is unfavourable.

**NADI VARGAH** – Nadi Vargah is one of an essential parameter. The Nadi vargah of the groom and bride are obtained based on the individual Nakshatra (Star) from the data provided in the table “Nakshatra & Particulars”. The Nakshatras are divided into 3 Types namely Aadi,

Madhya, Antya Nadis. Marriage between people of the different types is excellent. However, if both belong to same Nakshatra and if they are Rohini, Aardra, Magha, Visakha, Pushya, Sravana, Uttara Bhadra, Revati.

**RAJJU VARGAH** – Rajju Vargah is one of an essential parameter. The Rajju vargah of the groom and bride are obtained based on the individual Nakshatra (Star) from the data provided in the table “Nakshatra & Particulars”. The Nakshatras are divided into 5 Types namely Pada (Foot), Kati (Neck), Udara (Heart), Kantha (Neck), Siro (Head) Rajjus. Marriage between people of the different types is excellent.

# MUHURTA DETAILS

## MUHURTA (AUSPICIOUS) TIMINGS

It is believed that the success of activities that are initiated at a particular time are governed by the planetary configurations that prevailed at the moment and as such it is preferable to start important works at auspicious timings to get favourable outcomes. Several parameters that prevailed for the moment are required to be considered. There are mainly, 5 parameters and the booklet which provides the details of these 5 parameters is called “PANCHANG”. They are ‘Tithi’, ‘Day of Week’, ‘Nakshatra’, ‘Yoga’ and ‘Karana’.

The main part of this Panchang provides all the above details on the daily basis for the year and in addition also provides the Lunar Month, Lagn (Ascendent), Durmuhurta, Amrit Ghadiya and Varjya etc.

Our ancestors have conducted innumerable studies and provided the likely effects and created the requirements for several activities like Marriage, Grih Arambh (House Start), Grih Pravesh (House Entry), Upanayanam (Tread Ceremony) to get favourable outcomes.

These requirements are listed in the “Requirements for Muhurta- Auspicious Events”. Basing on these requirements, the auspicious timings available in the year for important activities are provided in the “2025- Muhurta for Marriages, House Warming and Upanayana”.

The individuals need to select the instances which suit them basing on the 3 strengths namely TARA BAL, CHANDRA BAL and ASTAKAVARGA BAL of planet MOON. Basing on the individuals birth star, birth sign and Moons Astakavarga, these strengths are arrived at.

The Muhurta timings in general are applicable to a location under a specific State and Country. The applicable parameters for each activity whether it is Marriage, Ghriha Pravesh or Upanayana are specified in detail.

# TRANSITARY RESULTS

## TRANSITORY RESULTS OF PLANETS

It is said that every configuration of Planets influences on the daily routines of individuals. The planets continuously move and the outcome of influence also continuously change.

Our ancestors have conducted innumerable studies and provided the likely results of planets on various walks of life of individuals. The point of reference taken mostly is the birth Nakshatra and Birth Sign (Moons position in the natal Horoscope) of individuals. These effects are summarised and listed under “Results of Transits of Planets Across various Signs”.

For ease of reference the summarised results of these transits have been computed by using the above results of transits and provided to the readers as “Annual Forecasts -2025”. The relative position of planets for each Rasi (Sign) are shown in italics (Red colour) and specified whether the influence is favourable (F) or unfavourable (U). A new para is created when ever the orbit of influence changed.

## **MUHURTA (Auspicious) Times**

*For starting or celebrating important events like Businesses, Marriages, Foundation Laying for constructions, Entry into a house etc., the Indian Astrology mentions that the planetary combinations prevailing at the planned moment has profound influence on occurrence of the event favourably as well the life of the concerned individual there after. There are three steps to be implemented to arrive at the Muhurta date and Time. Initially, list of Auspicious dates along with times are compiled into a data sheet and each one is graded whether "Best" or "Good" or "Average". Secondly, the suitability of each listed MUHURTA is checked for the individuals considering the parameters 'Tarabal', 'Chandra Bal' and 'Samudayaka Astakavarga Bindus'. Thirdly, user can select most convenient and favourable one amongst the suitable Muhurta. In case of requirement, please consult the authors.*
